

How to use the Resource maps:

If you know what kind of resource you need (i.e. Autism, Mental Health or Substance Misuse):

Go to the map link for the type of services you are looking for (ex. Autism) Resources Map link (This will show you a map of Indiana)

From here you can choose to filter your results based on other information such as if they are taking new patients or do they accept Anthem insurance. You may filter for as many of these as you select. NOTE: Program information changes frequently, this map is up to date as of May 2023.

Click on the down arrow symbol located below “IN Counties”

Scroll down to the county you want to see and click the blue button to the left of the county name.

You can now explore each resource by clicking on the dots on the map.

Once you click on a resource dot, you will be given information about the program.

If you do not find resources with the items you are looking for in your county, you can look at neighboring counties in the map using the zoom features. Or, you can use our list of resources available throughout the state, found [HERE](#).

If you are looking for all types of programs located in a county:

Go to the Statewide Resources Map link (This will show you a map of Indiana)

Click on one or more of the type of resources you are interested in, i.e. Autism, Mental Health or Substance Misuse

Click on the down arrow symbol located below “IN Counties”

Scroll down to the county you want to see, and click the blue button to the left of the county name

You can now explore each resource by clicking on the dots on the map.

Once you click on a resource dot, you will be given information about the program.

You can zoom the map in or out using the + and – located on the bottom left to explore resources in neighboring counties.
