

# OHIO County Mental Health Resources

As of June 2024, Ohio County does not have local resources for mental health, autism or substance misuse support and treatment. However, residents can access comprehensive services in nearby Dearborn and Switzerland counties. These neighboring counties offer a variety of options, including counseling, autism services, therapy, psychiatric services, and addiction treatment. Please reach out to providers in these adjacent areas for the necessary care and support or try a virtual health option.
